CEDAR HOLLOW HEALTH PARTNERS
Office Visit - Annual Exam
Patient: Dakota Demoson DOB: 1951-05-16 MRN: K2478224
*** SYNTHETIC RECORD - NOT A REAL PATIENT ***
Author: L. Lindqvist, MD

Patient seen on 2022-09-10 for annual wellness examination.

Past medical history: hyperlipidemia, seasonal allergies. Past surgical history: tonsillectomy in childhood. Family history: father with hypertension. Social history: never smoker, drinks alcohol socially, works in an office setting.

ROS: 10-point review of systems performed and negative except as documented in the history of present illness. Patient denies headache, vision change, chest pain, shortness of breath at rest, urinary symptoms, or new rash.

Vitals: BP 128/82, HR 84, RR 16, SpO2 98% on room air, Temp 36.8 C.

Exam: Vitals reviewed. Well-appearing. Cardiopulmonary exam unremarkable. Abdomen soft. Extremities without gross deformity. Mental status at baseline per patient.

Assessment: Routine health maintenance. No acute concerns raised today.

Discussed risks, benefits and alternatives of the plan of care. Patient verbalized understanding. Printed after-visit summary provided.

Electronically signed. This note may contain transcription errors; please contact the author with any questions regarding its content.

CEDAR HOLLOW HEALTH PARTNERS
Office Visit - Hospital Follow-up
Patient: Dakota Demoson DOB: 1951-05-16 MRN: K2478224
*** SYNTHETIC RECORD - NOT A REAL PATIENT ***
Author: L. Lindqvist, MD

Seen on 2023-01-31 for follow-up after hospitalization for appendicitis.

Review of systems: Constitutional negative for weight change. HEENT negative. Cardiovascular negative for chest pain or palpitations. Respiratory negative for cough. Genitourinary negative for dysuria. Skin negative for rash. Neurologic negative for focal weakness. All other systems reviewed and negative except as noted.

Vitals: BP 128/82, HR 84, RR 16, SpO2 98% on room air, Temp 36.8 C.

Physical exam: General - alert, oriented, in no acute distress. HEENT - normocephalic, mucous membranes moist. Neck - supple. Lungs - clear to auscultation bilaterally. Heart - regular rate and rhythm, no murmur. Extremities - no cyanosis. Neuro - grossly intact. Skin - warm and dry.

Medication reconciliation completed and reviewed with the patient. Patient given opportunity to ask questions; all questions answered. Patient agrees with plan.

Electronically signed. This note may contain transcription errors; please contact the author with any questions regarding its content.

NORTHBROOK REGIONAL MEDICAL CENTER
Emergency Department Provider Note
Patient: Dakota Demoson DOB: 05-16-51 MRN: D4237748
*** SYNTHETIC RECORD - NOT A REAL PATIENT ***
Author: M. Nakamura, DO

Date of service: 12-28-22. Patient presents to the emergency department.

HPI: Chief complaint: periumbilical abdominal pain with nausea for approximately 12 hours.

Past medical history: hyperlipidemia, seasonal allergies. Past surgical history: tonsillectomy in childhood. Family history: father with hypertension. Social history: never smoker, drinks alcohol socially, works in an office setting.

Review of systems: Constitutional negative for weight change. HEENT negative. Cardiovascular negative for chest pain or palpitations. Respiratory negative for cough. Genitourinary negative for dysuria. Skin negative for rash. Neurologic negative for focal weakness. All other systems reviewed and negative except as noted.

Vitals: BP 122/76, HR 90, RR 18, SpO2 98% on room air, Temp 36.9 C.

Abdominal exam: mild tenderness to deep palpation in the periumbilical region. No rebound. No guarding documented.

Labs: WBC 17.1 x10^3/uL (H). Lipase within normal limits.

Impression: abdominal pain, likely gastritis.

Discharged home with omeprazole 20 mg by mouth daily.

Return precautions given for worsening pain, fever or vomiting.

I personally evaluated the patient and reviewed the available records. Documentation completed with the assistance of templated text and reviewed for accuracy.
